Clinical Faculty Academy

The Academy is a communitywide training program for registered nurses pursuing or serving as newer and/or adjunct clinical faculty at nursing schools throughout the Greater Cincinnati region. Our mission is to develop qualified staff nurses for the role of clinical nurse educators to increase our region's faculty workforce and expand and sustain enrollments in schools of nursing.

What Will I Gain?

As a clinical educator, you will help train the next generation of nurses. Through the Clinical Faculty Academy, you will gain the following:

- Knowledge and skills essential for success in a clinical faculty role
- A support network for new and/or adjunct clinical educators
- Stronger connections between clinical practice sites and academic environments

Commitment

Nurses will attend a one-day program. You give us your time and attention and we promise to make it a worthwhile and rewarding experience.

If you are a hospital nurse who wants to teach and your hospital does not already have an established relationship with a school in which you can teach, please contact The Health Collaborative.
